

QUALITY POLICY

The Management and employees of **ENELINI ASSOCIATS, S.L.U.** intend to promote and enhance the following points with the ultimate objective of guaranteeing an adequate profitability of each of the company's resources over time:

- SAFETY, EFFECTIVENESS AND REGULATORY FRAMEWORK: it is **ENELINI**'s firm intention that all activities from the conception of the product, its design, manufacture, improvement and correction are aimed at guaranteeing the Safety and Efficacy of both the manufactured product and the imported and distributed product, compliance with regulatory requirements and Quality Objectives and the maintenance of the effectiveness of the Quality Management System (QMS).
- CUSTOMER SUPPORT: to ensure that the customer, whether end user or distributor, feels comfortable and safe working with **ENELINI**, knowing that the company is always available to help them and to respond to their actions.
- INNOVATION: in this process, which is essential to guarantee the future viability of **ENELINI**, all areas of the company must participate and be involved.
- WORK ENVIRONMENT: it is **ENELINI**'s desire to train, communicate and facilitate appropriate measures and processes so that its employees can carry out their work with maximum efficiency, effectiveness, occupational safety and personal pleasure, while minimizing the ecological footprint of its activity.

It is for all of the above that the Management is fully committed to this Quality Policy and thus be able to develop and implement an effective and efficient QMS.
